WORK EXPERIENCE

Front-end Developer (React)

Bitbine

04/2022 - 05/2023

a crypto currency startup

Remote

Achievements/Tasks

- Mastered advanced React-Typescript features and best practices by implementing complex components and regularly reviewing code with senior developers.
- Developed and optimized complex user interfaces using MUI, enhancing user experience and retention.
- Engineered robust E2E tests with Cypress.js, improving application stability.
- Implemented React-Table for dynamic data visualization, simplifying user interaction with data sets.
- Collaborated with senior developers to deliver high-impact features, refining development processes and ensuring timely project delivery.
- Integrated RESTful APIs, ensuring seamless data flow between front-end and back-end.
- Contributed to sprint planning and daily stand-ups, collaborating with the team to enhance productivity through effective communication and task management.
- Applied emerging front-end technologies to optimize application performance and ensure codebase scalability.
