

Masood Moosavi

Front - End Developer

Front-End Developer with over 3 years of experience specializing in building and optimizing user-centric web applications using React.js and Angular. Proven ability to deliver scalable, maintainable, and performant code. Strong background in Agile workflows, UI/UX collaboration, and modern development tools. Passionate about clean architecture, performance optimization, and continuous learning.

WORK HISTORY

Front-end Developer

Pendar Ideas

02/2024 - 03/2025

<https://divanhr.com/>

Tehran

Achievements/Tasks

- ▣ **Collaborated** on key projects ([HaloHava](#), [Esfanj](#), [Lead](#)), translating business requirements into actionable technical solutions that enhanced user engagement
- ▣ **Implemented** responsive UIs from Figma designs using SCSS and Nebular, ensuring smooth cross-browser compatibility and faster page load times.
- ▣ **Designed and implemented** the 'good vibes' card feature for the [HaloHava module](#), enhancing user engagement and interaction.
- ▣ **Integrated** Google Calendar into the [Esfanj module](#), streamlining scheduling processes and improving time management for users.
- ▣ **Collaborated** with UX/UI designers and the back-end team to integrate new features, facilitating smooth development and delivery.
- ▣ **Resolved** critical application issues, improving reliability and minimizing downtime.
- ▣ **Enhanced** team collaboration by advocating for better use of Git for version control, introducing branching strategies that improved code management and review processes.
- ▣ **Streamlined** feature development by refactoring legacy code, making it more modular and maintainable, which reduced the overall development time for new features.
- ▣ **Implemented** the latest Angular updates and best practices, maintaining application modernity and improving performance.

Front-end Developer

Bitbine

04/2023 - 02/2024

a crypto currency startup

Remote

Achievements/Tasks

- ▣ **Developed** complex components using advanced React-Typescript features, adhering to best practices to improve code quality and maintainability through collaboration with senior developers.
- ▣ **Engineered** user interfaces using MUI, significantly enhancing user experience and engagement.
- ▣ **Built** robust E2E tests using Cypress.js, leading to improved application stability.
- ▣ **Implemented** React-Table for dynamic data visualization, simplifying user interaction with data sets.
- ▣ **Collaborated** with senior developers to deliver high-impact features, refining development processes and ensuring timely project delivery.
- ▣ **Integrated** RESTful APIs to facilitate seamless data flow between the front-end and back-end, improving overall application performance.
- ▣ **Contributed** to sprint planning and daily stand-ups, enhancing team productivity and communication within an Agile workflow.
- ▣ **Applied** emerging front-end technologies to optimize application performance and ensure codebase scalability.

Front-End Developer

Immorit

04/2022 - 03/2023

<https://imorit.com/>

Shiraz

Achievements/Tasks

- ▣ **Built** and maintained high-performance web applications using React.js, ensuring responsive, cross-browser functionality for Imorit's diverse client base across multiple industries.
- ▣ **Optimized** application performance by implementing advanced techniques such as code splitting, lazy loading, and memoization, improving overall speed and user experience.
- ▣ **Utilized** Redux for state management, enabling the development of scalable, maintainable applications that handled dynamic user data efficiently.
- ▣ **Implemented** pixel-perfect, responsive UIs from design mockups, working closely with UI/UX designers to ensure the highest standard of usability and design consistency.
- ▣ **Followed** web development trends and introduced innovative solutions to enhance project outcomes
